## **Make Dua this Juma for the victims of Indian oppression in Kashmir**

While the whole world is worrying about the possible nuclear war between India and Pakistan, India has taken the opportunity to continue the killing and torture of Kashmiris in Occupied Kashmir.

There is one heavily armed Indian soldier for every ten Kashmiris. No international human rights organizations are allowed to enter the Occupied Kashmir to investigate the human rights violations.

Amidst the oppression and torture the Kashmiris are united under the body All Parties Hurriyet (liberation) Conference. This shows their determination and perseverance to liberate themselves.

Please ask the Imam of your Masjid to pray for the victims of Indian oppression in Kashmir at this Juma.

For further information please see the below press release of The Kashmiri American Council ([www.Kashmiri.com](http://www.Kashmiri.com)), a not-for-profit organization dedicated to raising the level of awareness in the United States about the struggle of the people of Kashmir for self-determination.

Washington, DC. July 12, 2002. The Kashmiri American Council (KAC) will commemorate "Martyr's Day" for Kashmir on July 13, 2002 marking 71 years of Kashmiri struggle. The KAC salutes the tens of thousands of brave Kashmiris who have been killed, maimed, raped, and plundered at the hands of 700,000 Indian military and paramilitary forces under the banner of self-determination and human rights.

Dr. Ghulam Nabi Fai, Executive Director of the KAC, declared that the celebrated martyrs have not suffered in vain. The 13 million people of Kashmir will resist oppression, colonialism, and foreign occupation to achieve self-determination as mandated by twin resolutions of the United Nations Security Council and international morality. If the last 13 years since 1989 and a surge in resistance activity teaches anything, it teaches India that India is destined to depart in recognition of the moral bankruptcy of its military occupation. As Napoleon said, morale is everything in long term struggles, stronger than bullets and bayonets.

Dr. Fai also applauded the call by the genuine political voice of the Kashmiri people - the All-Parties Hurriyet Conference - for a full day strike or hartal in Kashmir as a definitive expression of Kashmiris "no confidence" in the puppet Indian government imposed on the disputed territory.
